MY PAYMENT NETWORK'S SCHOOLPAYSM EXTENDS ITS MARKET LEADERSHIP WITH THREE KEY DISTRIBUTION PARTNERSHIPS
SchoolPaySM Provides E-Commerce to Schools Across North America
Agreements Integrate Electronic Payment Functionality with Leading K-12 Administrative Solutions

CORTE MADERA, Calif. – July 6, 2006 – My Payment Network, Inc. today announced that it has signed agreements with Administrative Assistants, Ltd. (aal), Timpanogos Technologies™ and Windsor Management Group to distribute My Payment Network's leading K -12 payment solution SchoolPaySM. These strategic partnerships will make SchoolPaySM available to more than 10,000 schools across both the United States and Canada.

"Payment processing in the K-12 setting has become complex with the continued slashing of public funding and the resulting pressure to add more sophisticated fund raising programs," said David Dunaway, CEO of My Payment Network. "We are excited about these partnerships because they will help us reach more schools and allow us to seamlessly integrate into services schools already trust and use. These partnerships underscore our K-12 eCommerce market leadership position and are the first of many to come. There simply isn't a more robust or flexible solution tailored to the unique needs of K-12."

Administrative Assistants, Ltd. (aal)

aal, a leading provider of enterprise-wide student information systems for the K-12 market will integrate SchoolPaySM into their eSIS, a rapid, real-time entry and student information retrieval software solution, spanning more than 7,000 schools across North America.

"Bringing SchoolPay's solution into our portfolio considerably strengthens the capabilities of our intergrated solution currently offered to our clients," said Brian Currie, CEO and President, aal.

Timpanogos Technologies™

Timpanogos Technologies™ helps school districts create, expand and improve web and data access for districts on the IBM iSeries™ servers with CIMS® applications. With more than 200 school districts in 28 states, Timpanogos will immediately begin to resell SchoolPaySM as a stand-alone service and has plans to integrate SchoolPaySM into their solution in the near future.

“We are excited about offering our customers SchoolPay. Our goal was to have an adaptable payment platform, such as the one SchoolPay provides, that will make it extremely easy for our customers,” said, Keith Blake, President of Timpanogos Technologies.

Windsor Management Group

Windsor Management Group, a market leader in financial and HR management solutions for K-12, will be integrating SchoolPaySM into their Infinite Visions® software suite. With a seamless interface between the SchoolPaySM service and Infinite Visions software, schools and districts will now be able to offer easy, self-service online payment options for parents and students, automating payment processing for an unlimited number of fee types, including lunch programs, field trips and student activities.

“Our strategic mission is to help K-12 school districts optimize and manage resources effectively by providing powerful, flexible and proven financial management solutions specifically designed for the education marketplace. SchoolPay allows us to deliver expanded capabilities in the area of eCommerce through its best-in-class solution,” said Richard Lessard, Vice President of Sales and Marketing, Windsor Management Group.

About Administrative Assistants, Ltd. (aal)

For over 20 years, aal has provided excellent student management solutions that help educators improve student results. One of the most powerful, richly featured web-based student information systems available today, aal's eSIS® is implemented in over 7,000 schools, serving almost 7 million students and is the solution of choice for states & provinces, regional service agencies and educational organizations across North America. Find us on the web at www.aalsolutions.com.

About Timpanogos Technologies™

Timpanogos Technologies™ are driven to serve customers by providing the quality of support services and product development which enable your district to retain it's investment in the IBM iSeries™ and your existing data. Supporting a national base of over 200 school districts in 28 states, Timpanogos Technologies' initial core business supports school districts by creating expanded and improved

web and data access for districts on the IBM iSeries™ servers with CIMS® applications.

About Windsor Management Group

The Windsor Management Group was established in 1980 by a group of school business management experts. Based in Tempe, the privately owned Arizona Limited Liability Company has become a market leader in financial management solutions for K-12, with more than 450 school districts nationwide using the Infinite Visions suite. Excellence in product development, delivery and support has given WMG the highest customer retention rate in the industry. For more information please go to www.InfiniteVisions.com.
